

## **AMO Plans benefit update: New Medical Plan benefit coverage for Lasik Vision Correction**

The Subcommittee of the Board of Trustees of the AMO Medical Plan reviewed the Rules and Regulations and approved the following Plan Benefit change effective April 1, 2008: The Optical Benefit was amended to include a Lasik Vision Correction Benefit. The Lasik Vision Correction Benefit will be \$600 per person per lifetime.

The Benefit will provide for payment of up to a maximum of \$600 for any combination of treatment or services relating to Lasik Vision Corrective Service Procedures.

**The Vision Correction Services Benefit can be used in conjunction with the Optical Benefit and will be paid in addition to the annual Optical Benefit.**

The participant may assign payment to the provider of service so payment can be made directly to the service provider. In addition, under the CIGNA MyCareAllies Healthy Rewards Program, Optical, Eye Care and Lasik Vision Correction services are discounted, but you must follow the rules of that program to utilize the discount.
